

GETTING STARTED

Step 1 - Research

Your first step is to review myoresearch.com. This website provides detailed information on myofunctional orthodontics and MRC's appliance systems and it will allow you to start treating cases.

Step 2 - Contact an MRC representative

Contact your MRC representative to get further information about the appliances and treatment methods. The representative can also provide you with information about MRC's courses, along with giving you access to doctor, staff and patient education media.

Step 3 - Attend a course

Our courses will equip you with the ability to treat a wider range of cases and achieve better patient compliance - all while experiencing increased profitability. Attending one of our courses will allow you to practice in a new and profitable technique that can be applied to most cases.

Attend one of MRC's seminars for hands-on training

Gaining the latest knowledge and developments in dental technologies is vital for practitioners looking to diversify themselves in a highly competitive market.

With international doctor and staff training facilities in USA, Europe and Australia, MRC provides dental professionals with a practical clinical approach to the treatment of malocclusion, airway dysfunction and TMJ disorder, using MRC's appliance systems.

MRC seminars will teach you the myofunctional evaluation system that identifies breathing and myofunctional problems limiting facial growth and causing malocclusion, as well as provide you with the ability to treat myofunctional problems evident in almost every child.

Detailing everything from clinical procedures, live demonstrations and patient education, the training seminars also serve as a great introduction for doctors wanting to become a *Myobrace® Member* or *Certified Provider*. Contact your nearest MRC representative or visit myoresearch.com for more details.

MYOBRACE® MEMBERSHIP PROGRAMS

The *Myobrace® Membership Programs* have been developed for dentists and orthodontists who would like a streamlined process for introducing myofunctional orthodontics into their practice. The program's global network is comprised of dentists and orthodontists who are united in the common desire to provide comprehensive and high-quality myofunctional orthodontic care to their patients. Being a part of the *Myobrace® Membership Program* allows practitioners access to MRC's own clinically developed educational and support tools.

Why become a *Myobrace® Member*?

- Treat a wider range of patients.
- Increase patient flow in your practice.
- Less chair-side time required.
- Financial benefits for you and your patients.
